Profile

A pleasure to greet you, I am a Systems Engineer graduated from the University of Costa Rica in the career of Software Developer. But to be honest, I do not like to pigeonhole myself in a single specialty, because I like to enjoy in different areas of the technological world. For example, I have worked as a software developer, graphic designer, digital marketing, writer, coaching and others. I love personal and team growth, bringing value to the projects in which I contributed and in the digital transformation.

Experience

SOIN (Now)

I worked in the application of digital capabilities to processes, products and assets to improve efficiency, the value of the company and its customers, risk management in the discovery of new business opportunities.

SOIN - Internship (2021 - 2022)

I have been implementing web applications as Fullstack JS in technologies like React JS, Typescript, Node JS, JSON, Docker, RestAPI, Material UI, Postgres and Oracle. In projects of impact for the Costa Rican government

Education

Universidad de Costa Rica (2015 - 2021)

Software Engineer Bachelor

Extracurricular

President of the student association (2015 to 2019)

Elected as president of the student association of the Caribbean Headquarters. Developing projects in areas such as education, administrative, scholarships, environment, recreation and among others.
